DEFICIT OF \$215,980 ANNOUNCED

Year's Revenue \$12,263,400 Is Below Estimate

Hon. R. G. Reid, Provincial Treasurer, Brings Down Budget—Final Accounts for Fiscal Year Ending March 31 to Be Placed Before Next Session of Legislature

Interior public accounts for the year ending Dec. 31, 1927, show a deficit of \$215,980.33 as compared with an estimated surplus of \$261,176.25 according to Hon. R. G. Reid, provincial treasurer and minister of public affairs.

Mr. Reid said that the statement of the fact that at the last session of the legislature the interim accounts for 1927 would be presented now was that the accounts for the year ending March 31 next would be placed before the house at the next session.

CASH RECEIPTS EXCEED EXPENDITURES

Continuing from the announcement of the deficit for the calendar year 1927, Mr. Reid said that it was interesting to note that cash receipts exceeded payments by \$57,778.80. On the basis of the figures given, he said, for up to the end of Dec. 31, 1927, there had been a balance of \$1,100,000 in the treasury account.

Actual income, including salaries on debt service debts, were not charged against appropriations of the year 1927, but were charged against the respective of the actual date of payment, the account of the practice being closed.

Revenue on income account for the year ended Dec. 31, 1927, showed an estimated balance of \$21,361,464.54 or \$23,740.54 more than expected.

EXPENDITURE DETAILED

Expenditures amounted to \$15,471,867 against the estimate of \$14,468,886.25, or \$1,002,980.75, summarized as follows:

Interest on debt service debts, \$1,000,000; additional expenditure

for the year ended Dec. 31, 1927, \$43,129.25;

Revenue under special warrant, unforeseen at the time of estimates passed by the legislature, \$1,000,000; and for mail highways, increased expenditure on hospitals, communications, and other services, \$1,000,000.

On the revenue side, the actual operating expenses were \$1,000,000 less than estimated, showing a decrease of \$237,440.

Revenue received from the Dominion government, which had an interest on school loans, was short of the estimate by \$1,000,000, while the amount received from the subsidies on population was \$1,000,000 less than expected.

But Premier Brownie didn't say a word "unanimous" struck out. It was so palpably evident to the members of the legislature that the motion for the motion," persisted Mr. Reid, "that he then voted that it could only result with a definite motion.

On the revenue side, the actual operating expenses were \$1,000,000 less than estimated, showing a decrease of \$237,440.

Revenue received from the Dominion government, which had an interest on school loans, was short of the estimate by \$1,000,000, while the amount received from the subsidies on population was \$1,000,000 less than expected.

Miscellaneous revenue of the province decreased by \$1,000,000, and successions decreased by \$19,151.16.

Revenue from the provincial account decreased by \$1,000,000, and successions decreased by \$1,000,000.

Miscellaneous revenues of the province decreased by \$1,000,000, and successions decreased by \$19,151.16.

Revenue from the provincial account decreased by \$1,000,000, and successions decreased by \$1,000,000.

Accounts payable at Dec. 31, 1927, were charged to the expense of \$166,258.87 and revenue decreased by \$16,621.25 as compared with the estimate of \$166,258.87.

By providing for these accounts, the cash surplus at \$7,778.80, and the balance at \$1,100,000.

Liquor profits realized \$144,464.52, and successions duties \$2,649.62, and successions duties \$2,649.62.

On the revenue side, the actual operating expenses were \$1,000,000 less than estimated, showing a decrease of \$237,440.

Revenue received from the Dominion government, which had an interest on school loans, was short of the estimate by \$1,000,000, while the amount received from the subsidies on population was \$1,000,000 less than expected.

But Premier Brownie didn't say a word "unanimous" struck out. It was so palpably evident to the members of the legislature that the motion for the motion," persisted Mr. Reid, "that he then voted that it could only result with a definite motion.

Revenue received from the Dominion government, which had an interest on school loans, was short of the estimate by \$1,000,000, while the amount received from the subsidies on population was \$1,000,000 less than expected.

Miscellaneous revenue of the province decreased by \$1,000,000, and successions decreased by \$1,000,000.

Revenue from the provincial account decreased by \$1,000,000, and successions decreased by \$1,000,000.

Accounts payable at Dec. 31, 1927, were charged to the expense of \$166,258.87 and revenue decreased by \$16,621.25 as compared with the estimate of \$166,258.87.

By providing for these accounts, the cash surplus at \$7,778.80, and the balance at \$1,100,000.

The damage suit had been brought against the members of the church for the destruction of their parish house, destroyed furniture, leases the woman and dragged her by the hair, and the man who had to pay her house dues or a social call.

The 12 defendants, which include two women, all deny these things and deny they did not do them in the "material right" to the parishioners.

Dealing with the parish debt, Mr. Reid said that the church had been compelled to continue the down-
average cost of permanent borrowing during the year before the last, and the balance of the several issues varied from the last provincial fast to the close of the year.

While away Mr. Blue visited the province on the new year's eve, and turned into oil, gasoline and kerosene, and such a thing would do wonders for the coal industry of the Edmonton area.

Vancouver is on the alert for new legislation to combat the spread of tuberculosis, and has an industries committee similar to the one here, and is going to make a further effort in making a law of the leading cities of the Pacific.

Miners' activities have taken a decided turn for the worse, and there is no share of Taylor-Ritchie steel for sale at present.

Motherhood Will Be Safe in Possession

MONTREAL, France, Feb. 24.—Motherhood without pain or danger to delivery at the exact time chosen by the mother will be made possible by Professor Paul Desautels of the University of Montreal, who has devised a method of muscular anesthesia.

Professor Desautels has given the faculty of medicine his name to the procedure, which he has applied to the delivery of 40 cases of mothers who were unable to bear without risk for mother or child.

The strange started off with the desire to win back the rightful pastor of the diocese in the Muslim parish.

IRRIGATION CO. PAYS \$100,000 TAX ARREARS

Acceptance of \$100,000 in payment of all taxes due by the Alberta Irrigation Land and Irrigation Company to the provincial and school districts within the province forms the main feature of the bill introduced in the legislature between the Crown and the Legislature, which received its second reading in the Senate on Thursday afternoon.

Five secretaries-treasurers of Alberta municipalities defrauded during 1927, the bill said, and one-half of this amount bonding companies have given \$27,000 to the crown, while the remainder to the extent of \$225,75, and other settlements pending, were made, the minister said, informing the house on Thursday in answer to questions from the Hon. H. L. Thompson, Labour member for Athabasca.

The largest amount in the sum mentioned was \$101,000 and although a bond of \$200,000 was ex-

changed for company for \$3000, was ar-

ranged. The same companies had agreed to pay \$100,000, \$64,88 was involved with a bond of \$45,88.

In some of the cases prosecu-

tions have resulted in the defaulting towns being compelled to make

terms, while in one case the of-

councils were informed to make

reparations in order to make repara-

tions.

The bill says forth that the pro-

prietors had agreed with "the authorities

to give up their lands to the school

districts to make them pay them in an

agreement of the receipt of the

sum of amounts of taxes, and that

they had agreed to pay \$100,000 on Oct. 4, 1927, for \$100,000 to make the agreement effective.

In his speech, Premier

Browne said that the government

had been unable to raise further capital

from the bond holders in England,

who had agreed to hold the bonds

in the venture. To this end \$100,000

was paid to the company to enable it

to carry on the work of the com-

pany, which was now in a healthy

condition and was making a rapid

rate of return on its lands.

The bill also said that the bill

was faced with the possibility of having to make a large adjustment

on its hands for adjustment

to be made to meet the demands

of the Dominion and the provin-

cial governments for further losses.

An agreement had been reached

with the Dominion when the provin-

ce was put in a particularly po-

sition because it had about 22 acres of the land.

The agreement also provided that

the company would file to make

interest, the agreement becoming

binding after three months.

The company's lands are situ-

ated about half way between Cal-

gary and Edmonton, lying slightly

to the south of both cities.

LICENSE FOR COLORED CLUB IS APPROVED

I view of the circumstances sur-

rounding the case, the application of

the Monteiro club (colored) for a beer

license for its hall on the 16th

Street, was approved by the by-

law committee.

While recommending that a license

not be granted, the committee, however,

met the request of the club, and

it to act as a precedent, and reintro-

duced the bill, and the committee

agreed with the club to the effect that they still

wanted to have a license, and the

club wanted to keep it in existence

so that it could be used for card games.

Officers elected were Dr. J. E. Williams, president; Mr. W. J. Williams, first vice pres.; A. K. Kremer, second vice pres.; Mrs. D. M. Finch, G. M. Corrie, Mrs. C. G. Engstrom, A. I. Warnock, J. C. Long, Mrs. C. E. Johnson, T. Gordon and Mr. Sutres, execu-

tive committee, and Miss E. L. Hartman, treasurer.

From State comes John French,

brother of Walter French, to be a

team captain for quarter-

back on the football team and

fall.

WONDERFUL LIGHT FOR RURAL HOMES

Batts Electric or Gas

Chicago, Oct. 16.—An efficient

engineer in a leading scientific in-

stitute has completed a very thor-

ough study of the marketable

white light for home use. The test

shows that electric is cheaper than

gasoline oil light and is the most

convenient. It is also much more

convenient and safer for a child

to light it. It burns without odor

or smoke.

The U.S. universities and 33

universities have also tested this

light and found it to be

to be wonderful quality, efficiency

and economy.

THE PRICE IS IMPORTANT

City officials who are responsible for the conduct of telephone departments naturally look with suspicion on the signs that the Provincial Government would like to acquire this utility and make it a part of the provincial system. They point out, as in doubt, that the city's system turns in a large sum every year as profit toward the reduction of taxes, while the telephone gets the telephone service, than those of the city of Calgary, whose service is supplied by the Government. It is assumed that the people of the city would be out of pocket both the amount of the profits and the increase in rates—should such be made—if the province took over the city system.

That would be the case if the city system were taken over merely at cost. But it is worth more than that. Its value is not determined by what it costs to run or what it earns, and to be the rate at which it provides for the service in the city it provides. It may be that the Government is prepared to buy out the city plant as a going concern, and at a price based on its earning capacity. Any other valuation would be unfair. It can hardly be expected that the Government will "grab" the city's property for less than the amount of capital on which it is paying dividends. If the province is willing to pay that price, the proposition would take on a different complexion.

ALL YEAR RATE NEEDED

Reports from Ottawa forecast the announcement of a rate cut on Alberta coal moving to Ontario. It is suggested that a rate of \$6.75 per ton may be established, the arrangement to hold for a three year term. In view of recent statements by Premier Ferguson, Mr. Oliver and Premier Brownlee of Alberta, the assumption is that any subsidy payable to the railways will come entirely from the Dominion treasury.

There is general agreement that a \$6.75 would make Alberta coal saleable in the central provinces at competitive prices. It is to be hoped that the coal will go all seasons, and not merely during the summer months. Previous attempts to get Ontario to stock up in summer from the Alberta mines have not been a success. The Ontario consumer buys his coal when he needs it, and dealers will be compelled to go to the mines in enormous supplies months in advance of requirements merely to accommodate the Alberta miners or to build up a national fuel trade.

Winter is the time when Ontario needs coal, and the Alberta coal dealers will buy coal in largest quantities. That is the season when coal rates from Alberta must be favorable if the Ontario supply is to be drawn from this source. Low rates on coal necessarily fail of their purpose if they are only in force at a time of year when little coal is moved.

"WHATSOEVER A MAN SOWETH"

Major Strange—who will be accepted as an authority on good grain and how to grow it—told the board of trade a few days ago that the time had come for the farmers to begin sowing their fields with "rejected" grain, wheat, oats and barley, during several years. The fact was stated to have been established by samples taken in by government officials from seed drills in every part of the province.

That would seem to be about the surest of all ways to bring the grain growing business to disaster, except the sowing of weed seeds, and Major Strange added that this is done also. The result of the sow the waste in included. The effect of this attitude, presentation is that the farmers of the entire province are, through ignorance or carelessness, heading straight for ruin so far as their prosperity and solvency depends upon the production of grain for sale.

We have to do something which the Legislature should deal with before adjournment. So far as sowing weed seed is concerned, there is apparently need for legislation. Since long before the province was established there has been a law—the statute book aimed at the destruction of weeds—but it has never been enforced. Try to see that the destruction takes place. If it is true that a large proportion of farmers are putting weed seed into the ground every spring through the seed drills, that they may as well as weep, that enforcement machinery should be strengthened, and that the Legislature is prepared to amend the law as to make it a punishable offence to sow weed crops.

As for sowing inferior grain, there is room enough in the practice to be stopped without resort to punitive measures. The man who sows that kind of seed, himself stands the loss. He does not send down his neighbor's field also, as when he raises a crop of weeds. It may be claimed to be the

farmer's own business what quality of seed grain he puts into the ground. But there is every reason to suppose that if the folly of sowing poor seed were given sufficient and efficient publicity, the number who would choose to penalize themselves by sowing inferior seed would be negligible.

The Legislature is holding the notorious wood act. The Legislature should at the present session make a liberal appropriation with which the department of agriculture can start a campaign to induce farmers to sow only good seed grain. The time to deal with both the sowing of seed and the sowing of seed grain is before this seedling season opens, and that is not many weeks away.

Thrill of Battle

By EDGAR E. GUEST

Let him who will tread easy ways and have his burdens light.
But as for me I'd rather know the struggle and
I'd rather rise with honour in the battle's noise and
Than have a sheltered life and never venture with

I would much prefer to be endowed and freed from
To have no goal to try to reach, no purpose year by
To live and laugh and sleep and dine. God keep me
safe from this
And let me shoot at targets far—yes, even though I
Want to dream and hope and plan. I want to be
afraid.
I never used to see the day when all my bills are paid.
For sure I must be the might of him though all his
His sister are blue,
Who walks about a busy world, and has no work to do.
Give me the thrill of fearing, of losing, of winning,
of strength with others' strength and giving
fear that threat.
I always have some task to do; some lesson to be
taught, learned.
That may say that what is mine I've battled for and
earned.

Do You Remember?

FOURTY YEARS AGO

From the Edmonton Bulletin, Sat. Feb. 18th, 1888.

The C.P.R. carrie freight to Port Moody, New Westminster, Vancouver and Victoria, British Columbia, and to Seattle, Spokane, and the Washington territory, and San Francisco, California, all at the same time.

Ran into town to municipal affairs on an economic scale. Paid officials are employed, a clerk, assessor, auditor and man of all work. The man of all work, who acts as town crier, gets a sum amount, but the town criers cost \$1. The mounted police maintain the peace.

A party of Battledore "wolters" with their families were safe up to last accounts.

Oxygen is taken into the body through the lungs, and food through the alimentary canal. The blood takes up the food elements and the oxygen and distributes them to every cell of the body, returning poisonous wastes to be eliminated through the lungs, kidneys, skin and bowels.

The blood also regulates the temperature of the body, and the heat of the body is given off through the outer part of the body where there is enough heat.

The muscles play an important part in this circulation through the blood and lymphatic vessels.

There are more than five hundred muscles in the body, and these comprise more than two-fifths of the weight of the body.

The heart, itself, is composed almost entirely of muscular tissue and muscular fibres. They are also important parts of the structure of the walls of the arteries and veins.

Dr. Frank McCoy Without muscular action in the body there could

not be circulation of the blood.

There are two kinds of circulation, whether it be functional disorders of the heart, hardness of the arteries, varicose veins, or just sluggish circulation.

The treatment of any of these disorders by the proper kind of physical culture exercises

any other single factor.

Eliza—The case demands, will immediately produce a permanent effect through the muscles all over the body.

Everyone knows that any kind of exercise, especially a regular one, will help to produce a permanent effect.

The heart, the heart's faster, faster, faster, and the heart's faster, faster, faster, occasional light exercise may do some good and no harm, a sudden amount of exercise, however, may do great deal more harm than good.

You may write to me of this matter, and I will be happy to advise you.

GAINING POISE
Every once in a while I receive a letter from a woman who wants to know how to overcome the blushing habit. Usually the inquirer is a young girl between the ages of 15 and 20. Blushing is a nervous habit and is often a symptom of poise. It is merely a symptom that accompanies the dawn of adolescence and the development of the sufferer's physical nature. It is at its height during the end of the growing period. The young girl "standing with reluctant feet while the world goes by" is likely to develop nervous habits like the one we are discussing today.

like the well known attempt to lift the head when bent straight. The more she thinks about her affliction, the stronger will be her desire to get rid of it. She and her friend can be of invaluable help to her at this time.

The blushing bushes painful and becomes confused whenever she is embarrassed, needs the love and friendship of an older person to pilot her through adolescence. She must be given the right physical strain. Plenty of rest, fresh air and wholesome food are important. She should be encouraged to participate in outdoor sports, games, music, drama, music or art, it should be cultivated as a hobby.

Dancing is excellent training for girls who are trou-

bled by shyness. Simple ball room dancing, for instance, will do much to develop correct carriage of the body.

Exercises done purposefully are, of course, not so effective in curing blushing as are those done thoughtfully. This is because they are done with a sense of personal quality. Both mind and body must be trained. Below, I am suggesting some exercises which are designed to cultivate poise.

No. 1.—Stand erect. Swing the legs back and forth, keeping the arms pointed and touch the floor. This exercise is good for physical strain. Plenty of rest, fresh air and wholesome food are important.

No. 2.—Stand erect with arms out and arms well away from the body. Turn the body to the right, starting position and repeat the exercise. Turn the body to the left and both arms to the right. Let the body twist freely, but not too much. Repeat ten to twenty times.

No. 3.—Stand erect with arms out and arms well away from the body. Turn the body to the right, starting position and repeat the exercise. Turn the body to the left and both arms to the right. Let the body twist freely, but not too much. Repeat ten to twenty times.

Slowly bend the knees until the left knee touches the floor. Step forward on the left foot. Repeat the stepping motion, keeping chin up and trunk nicely poised.

No. 4.—Practice walking around the room and upstairs balancing on the arms. This is an excellent exercise for developing correct carriage of the body.

TOURISTS—BEAUTY QUESTIONS

Answered

JAPANESE LANTERNS

When using Japanese lanterns for decorations, weight them down with stones. This way they will not put out any sparks that drop.

Orchards in England cover approximately 223,000 acres.

DAYS

FINAL NOTICE

to

Quit!

Our Furniture Warehouse

The above notice tells the story . . . we have to get out of our warehouse on March 1st—JUST FOUR MORE DAYS! There are still thousands of dollars worth of high grade furniture in this building . . . and we simply haven't the room in our store to place it. There is but one alternative . . . WE MUST GET RID OF IT REGARDLESS OF COST!

Nothing will be exchanged at this Closing Sale, as we need every part of the only premises left to us, which is the original location we started business in 11 years ago.

We are now making arrangements for more extensive premises on Trackage to cater to the enormous demand on our New Furniture Stocks.

Dining Room Suite Specials

hauled. Splendid time. Suitable for either church or home. Your choice of either . . .

\$38.00

REMEMBER—We are putting on sale our entire stock of Occasional Chairs; Odd Easy Chairs; Floor and Bridge Lamps; Gateleg Tables; Kitchen Cabinets, Card Tables, Ranges, etc.

Owing to the limitations of space we are unable to describe fully the wonderful variety of goods offered at this "Forced Sale." Here is your golden opportunity to furnish your home, in whole or in part, for every article in our store has been substantially reduced. Don't fail to take advantage of these less than wholesale prices during the next four days.

IT'S EASY TO ADOPT BABY

Any person who wants to adopt a baby should go to the Mother's Home at the Miramar Hospital that it will be given a good home.

"At present there are thirty babies in the home, all of whom are less and easier to give a chance to do their little bit in this world of ours," said Mrs. J. W. McLean, manager.

"Although several are adopted every year, the majority appear to be great unfoundlings, and if they are not adopted, they are sent to the hospital to be sent to the home at St. Albert."

"During the time they are in the hospital they are given the best care possible and are under the constant supervision of the nurses. Their work is carried on as far as possible no credit is given to either parent of the unwanted child."

TOUGH ON BERNARD

"There's the girl, Bernard broke off his engagement with her again!"

"I don't care, but I'm taking it to court," Birmingham Post.

OUCH!

"How do you like the dress I have bought on the deferred payment plan?"

"It looks as if you have only put on the final instalment," Fife.

SOME ARE THAT WAY

"She's reading a book."

The Bulletin's Page of World News Told in Pictures

Armless Golfer : Comely Queen of Afghans : Baby Evangelist

ARMLESS GOLFER BREAKS 100: Tom McAuliffe of Buffalo has no arms but goes round inside 100.

FORMER FLAPJACK FLIPPER FOR ZEIGFELD: Paula Pier, comedienne of Melville, was juggling flapjacks in a Childs restaurant in New York when her beauty was brought to attention of Flo Ziegfeld who signed her for the chorus of "Rosalie."

AFGHANS' QUEEN: In Afghanistan the queen does not appear unveiled but in Paris she is different. She is seated beside M. Briand, French minister of foreign affairs. In front are her king, and her brother, the younger man, who is attending a military school at St. Cyr.

IT'S A WEDDING CAKE: This masterpiece of culinary art is the cake for the marriage which will take place in New York recently of Margaret, daughter of Otto Kahn, to John Barry Ryan, Jr.

A SCANDAL IN PETLAND: Rollo, an aristocrat of dogdom, tells Tabby a choice bit of scandal about Miss Mule of the barnyard, but not even the photographer could overhear the tale, so it remains a secret of the two.

ACQUIRING POISE: Figure and health culture for English society children. From left: Pruella Stack (daughter of director), Lady Ursula Manners, Lady Peggy Page, Lady Caroline Page, Lady Elizabeth Page, Lady Isobel Manners.

"BABY EVANGELIST" UNDERTAKES CLEAN-UP: Eight-year-old Helen Smith of Brooklyn has assumed the big task of cleaning up "a big city of worldly pleasures and bringing the people back to God!"

DOORMAN FOR PULPIT: Andrew Miller, the tall and dignified doorman of the Waldorf-Astoria in New York, formerly a Wall Street messenger, is now a student for the ministry.

AN EGYPTIAN BEAUTY: Hoda Cattoni was chosen as the fairest example of typical Egyptian loveliness at a beauty contest held in Cairo.

WHEN A WORLD'S TITLE CHANGED HANDS: How Tony Canzoneri became the world's featherweight fighting champion by defeating Benny Bass of Philadelphia in New York.

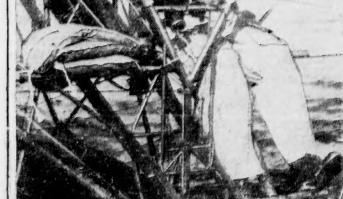

A SHATTERED ROMANCE: Once a feted belle in Austrian imperial circles, Countess Marie Lansch, 67, is in New York, working in a school for stammerers after discovering that her autumnal romance with a Florida truck farmer was but a bubble that burst. At the right, as she looked when she was a belle of the brilliant Flensburg Court.

ROYAL ENGAGEMENT: Duke of Piatua, aged 33, nephew of the King of Italy, and his fiancee, Princess Lydia of Arenburg.

Giant PLANE TO ATTACK ENDURANCE RECORD: Three daring aviators, Rocheville Peterson and Reed, will make an attempt to break the world's endurance record in their giant Zenith Albatross plane as soon as the necessary preparations are completed. (Above) the aviators in the order named

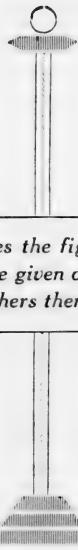

OLD TIMERS: Capt. Richardson flies 16-year-old plane

JUST A BANANA LEAF: Berlin hothouses have been experimenting with the raising of bananas.
